Ref: D.I.B. Australia installation of Epson EB-460e projectors

To Whom It May Concern,

We recently had D.I.B. Australia install Epson EB-460e Ultra Short Throw projectors in two rooms at Berwick Secondary College.

We chose D.I.B. for this job as they had completed the original installations in these rooms and we have been dealing with them for a number of years.

Bianca Hargrave from D.I.B. was open to listening to our ideas and suggestions and made several suggestions herself to enhance the installation.

D.I.B. were realistic when it came to scheduling. We received plenty of notice and it was conveniently completed in the school holiday period when the school was closed to students.

Mick, the technician sent out by D.I.B. communicated all relevant details to us clearly and completed the installation to a high standard.

Yours sincerely,

David Goyen
IT Manager
