RE: Reference for D.I.B Australia

We have used D.I.B Australia over a number of years for the supply and installation of Audio Visual equipment. We have been impressed with the various installations D.I.B has managed for us and have been happy with their work over the years. We have been especially happy with the excellent after sales service which we have received.

We most recently used D.I.B Australia for the installation of a 2Touch Interactive Whiteboard and Epson widescreen projector into our library. As always, I was impressed with the consultation and with the quality of the work.

The scheduling of the job managed by Mel worked well, and Grant did a final check on all equipment, once the electricians had finished their work.

I have come to know Sam, Mel, Grant, James, Trevor and Karl at D.I.B through various projects and feel that we work well together as a team.

I am happy to work with D.I.B in the future, and to recommend them to other schools and colleges.

Yours sincerely,

Rodney Morris
AV Technician
