

CONCORD

15.10.2008

Our school has worked with D.I.B before and been very happy with the work previously completed. So when it came time to install some AV equipment into our new multi-purpose area we knew who to turn to. During the quoting stage Sam Garden was able to guide us in our decision and was very knowledgeable about the products involved. The job was completed well after an initial mix up with the plans, but James (technician) was able to sort it out. Melanie Garden the production manager kept in constant contact and was able to re-schedule the job for us on numerous occasions due to some of our building difficulties. All in all, I would be happy to recommend D.I.B to others in need of an AV installation.

Regards,

Kath Moore
Junior Team Leader
