Dear Jade,

On behalf of the Centre for Hormone Research (MCRI) and the Department of Gastroenterology (RCH) I would like to thank D.I.B. Australia for their professionalism in setting up the equipment in our Seminar Room.

I would like to thank Sam Garden, Mel and Andy in particular, for their generosity and patience in dealing with our two different departments. It's difficult for one Department to make a decision let alone two, and they were all very understanding.

I would be more than happy to recommend D.I.B. Australia to other departments within the Royal Children's Hospital (RCH) and Murdoch Childrens Research Institute (MCRI).

Many thanks

Lee-Ann Jones
