To whom it may concern,

Hume Anglican Grammar has worked with DIB Australia extensively in the past, with a positive, ongoing relationship that spans many years. We're consistently impressed by the quality of DIB's products and services, and we have rarely had any issues with their products. When an issue did arise, DIB was quick to rectify the situation so as to not hinder any valuable teaching time. So when we needed to upgrade the audio-visual equipment in three classrooms, DIB was our first choice.

Our Sales Consultant, Gabi Ceglia, was a pleasure to work with. She was very accommodating and prompt, always keen on doing site visits and walking through the school until she understood the layout of the rooms. Combined with her thorough knowledge of her craft, Gabi was able to quote well and appropriately for each room, offering ideas as to what technologies would best suit the functions of the room. For this recent project, three interactive screens were installed in the rooms, and they are operating perfectly. Gabi was also very supportive with our timelines with regards to financing, making the process of organising the project easy to deal with.

The production management, led by Mel Garden, was equally as seamless. Mel was straight-forward and communicative during the scheduling process. Mel was also very supportive and maintained a personal relationship with us, which made her easy and enjoyable to work with. We are very happy with her services.

Our DIB technician, Trevor Phan, was absolutely efficient during the installation process. Trevor always ensured that all of the appropriate paperwork that needed to be read and signed was organised for us before he left, which was greatly appreciated.

We couldn't recommend DIB's services more.

Kind regards,

**Tim Agnew**  
Deputy Principal
