

WERRIBEE FOOTBALL CLUB LTD

ABN 26 134 226 154

6th August, 2018

To whom it may concern,

The Werribee Football Club has recently employed the services of DIB for a series of installations both inside and outside of our facility. As we are tied with the Wyndham City Council, they had organised that the club work with DIB, and we were not disappointed with the quality of their services and their products.

Our Solutions Consultant, James Ridd, was exceptional, and we couldn't be more pleased working with him. James was always available and was always on the phone. He was more than prepared to answer any questions or queries we may have had throughout the project and we were impressed by his extensive knowledge on audiovisual equipment. He was able to advise us as to the right equipment for our spaces so that we can make the most out of them. All in all, James went over and above our expectations.

In terms of production management, headed by Mel Garden, everything went well. The time frame provided by Mel was ideal and the production team completed the job in appropriate time. The technician, Trevor Wilkinson, was kind and pleasant throughout the installation. He ensured that the job was done and that it was done well.

Overall, we are happy with DIB's services.

Kind regards,

Mark Penaluna
