Re: D.I.B. Australia Ultra Short Throw projector Installations

---

To Whom It May Concern:

D.I.B. Australia was originally recommended to us by an architect and recently installed Epson EB450We widescreen ultra short throw projectors in 22 classrooms throughout the College.

We found Bianca Hinkly from D.I.B. Australia to be very thorough and flexible. She came out to the College several times and worked closely with Barry Cooper, our IT Coordinator to ensure D.I.B.'s proposal would meet the College's needs.

When it came to the installation, D.I.B. was very clear on when they would be on site to install equipment and how long each installation would take. This enabled us to schedule classes to clear rooms for installation works as required.

We found D.I.B. Australia's installation team to be considerate of the school environment. They worked diligently and ensured classrooms were left in a neat and tidy manner.

We would have no hesitation in using D.I.B. Australia for the installation of audio visual equipment again in the future.

Yours sincerely,

---

Paul Dingle
