

**HUME CENTRAL**  
Secondary College

10<sup>th</sup> April, 2008

Late last year, D.I.B Australia was employed by us to supply labour to re-install our existing Video Commander system at our temporary location – Hume Central Secondary College, Erinbank Campus - whilst we await the completion of our new school building. DIB installed our original Video Commander System, so when it came time to move campus, the company's familiarity with our system and proven track record over the years made it the obvious choice for the project. Initially there were some glitches in terms of the scheduling of the job, but action was taken and all was quickly rectified. Both technicians, Trevor and Karl, were very competent and worked well within the college. I would be happy to recommend their services to other schools.

Barbara Sedgwick,  
Resource Centre Manager,  
Erinbank Campus,  
Hume Central Secondary College.
