D.I.B Australia Reference

To Whom It May Concern:

We recently used D.I.B Australia to fit-out 8 classrooms with Epson data projectors and Mimio Interactive Whiteboard systems. We chose D.I.B Australia for this job due to the competitive package that they put together for the school.

The technicians did a good job and worked well to complete the installation by the beginning of the school year according to the agreement.

We have enjoyed using our new interactive resources to access the extensive resources of the internet thereby changing the classroom teaching and learning environment into a global environment. The students have found this very engaging and stimulating and the teachers have been excited by the additional opportunities that they have been able to use in their classrooms.

It was helpful having Tim provide us with training on using the systems in a classroom environment.

Yours sincerely

Gaylene Fehlberg
