

MARLBOROUGH PRIMARY SCHOOL

No 5045

“Strive for Excellence”

15th May 2008

We received some promotional material from D.I.B Australia and contacted them with the intention of upgrading our whole school PA system. They provided us with a good quote based on an upgrade of our PA cabinet and installation of new classroom speakers and external speakers across the whole school. We decided to go ahead with their installation based on their competitive price and quality of service. We found both the consulting and scheduling process to be good, as was the technicians approach to the job. I was kept informed of progress and issues and any questions I had were answered to my satisfaction. I would be happy to refer them to others wishing to do a similar installation at their school.

Best regards,

Tony Twining
Principal
Marlborough Primary
