Re: 2Touch Interactive Whiteboard Installation

To Whom It May Concern:

I initially became aware of 2Touch interactive whiteboards through a network meeting at another school and wanted them for our school due to the multi-touch functionality and the fact that you can use them as interactive or normal whiteboards.

We arranged for Bianca Hargrave from D.I.B. Australia to call out to the school to assess our needs. Bianca was very informative and knowledgeable in relation to meeting our school's needs. She followed up on all issues promptly.

Bianca explained 2Touch Workbook really well and ensured that we understood how to use it.

The board is installed in a staff area and is used for team planning. We plan to begin using it shortly with student groups.

Yours sincerely,
