RE: D.I.B. AUSTRALIA

To whom it may concern,

I recently used D.I.B. Australia for the installation of digital signage in the Cafe at Oxley Stadium.

We chose D.I.B. Australia to carry out the works based on the quality and standard of service provided on previous installations they carried out at the stadium.

I was initially recommended approaching D.I.B. by Oxley College and have found them to be a professional organisation. I have found their staff to be skilled and knowledgeable in the field of digital signage and that we work together quite well.

The installation involved ceiling mounting two Panasonic 42" Commercial Plasma Screens. The installation went well and the installation team worked solidly and professionally towards providing the service best suited to our needs and expectations.

We are happy with the result and would recommend D.I.B. Australia for similar installation works.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Robert Duncan".
