

31st of July, 2008

Over the years we have employed D.I.B's services for a number of projector installations. Most recently they completed projector system works in a few classrooms within the school. Our Sales Consultant Sam was great. He was very patient with any quote adjustments which I asked for and he was always on hand to answer any questions I had. He was happy to organise projector demonstrations and was also ready to come to the school if he was ever required. Mel Garden who handles the scheduling side of the job is always a pleasure to work with. She was ready with answers to my scheduling queries, and happily organised a mutually suitable installation date. The installation technicians, Mick and Jason were equally pleasing and performed well. They were ready with answers to job duration queries and completed the job within the projected time.

Best regards,

Stephen Benko
