Re: Classroom projector installations

To Whom It May Concern:

We recently had D.I.B. Australia install short throw Epson projectors and Jed controllers in three classrooms. I invited D.I.B. to quote for this job as I was happy with the quality of work they have done for us in the past.

It was great that the representative D.I.B. sent out really knew what they were talking about. This meant that I could explain what I wanted to do, take on D.I.B.'s advice, and together we could arrive at a superior solution.

There was plenty of leeway from D.I.B. in scheduling this well organised installation. The technicians did a great job with the installation.

I would be happy to use D.I.B. for further installation works.

Yours sincerely,

Robert Perdomo
