To whom it may concern,

I initially contacted D.I.B with the need to install a new projector system into both our library and a couple of classrooms. We had a look at their website and their installations catalogue and decided it was time to get someone out to get some advice on what would best suit the areas involved. The consultation was good and they were offering what we needed at the right price so we decided to go ahead with the works. The installation and communication managed by Mel Garden was first class and she was as accommodating as she could be. The technicians involved were punctual, friendly, very professional, helpful and I couldn't fault them! Even when they were getting interrupted by school students' movements they were very tolerant. We were quite pleased with their efforts as it is not often that you get the type of service they provided. It is for this reason that we will be happy to deal with D.I.B again in the future.

Best regards,
