THORNBURY
HIGH SCHOOL

To whom it may concern,

We have purchased 3 full installations of the 2-Touch interactive whiteboards from D.I.B. this year and have been very pleased with each of them.

We chose the 2-Touch boards for their robustness, ease of use and potential that the new 2-Touch technology promised and we are currently very satisfied with them.

The sales representative was extremely helpful and understood the needs of a school and its teachers and helped advise on positioning the equipment and any additional fittings needed. When it came to installation, I was called several days before to check the specific details and timings and these were kept to at all times. The installers themselves were very helpful and knew exactly what needed installing and where, not something I have experienced often with other companies. They worked quickly and efficiently and communicated with me whenever necessary. They finished by testing each installation fully in my presence and showing me how to use the equipment.

Since installation several months ago, the equipment has functioned perfectly with daily use by a range of staff. The few queries I have had about aspects of the equipment have been answered with short phone calls.

In summary, we have enjoyed working with D.I.B. and been very impressed with every aspect of their sales, installation and support teams. I thoroughly and unreservedly recommend them and the 2-Touch interactive whiteboards.

A handwritten signature in blue ink, which appears to read "Simon Townley". The signature is fluid and cursive, with a large loop at the end.
