To whom it may concern,

Dandenong North Primary School has recently engaged DIB Australia for the installation of a Classic Commbox system. We chose DIB as they stood out from their other competitors, offering high-quality, effective products and service for a competitive price. Choosing them for this project was an easy choice.

Our DIB Sales Consultant, Gabi Ceglia, was instrumental in the success of this project. Gabi's comprehensive knowledge of audiovisual technology allowed her to go above and beyond in ensuring that our space was fitted with the right technology. She was professional and practical, and was well-equipped to answer any questions or concerns we had during the project.

The production department, which was overseen by Mel Garden, was a pleasure to work with. Mel was equally as practical and efficient, ensuring that details about scheduling and lead times were communicated clearly. Our DIB technician, Andy, conducted himself with utmost professionalism during the installations. He was very prompt during our exchanges with him, and was always eager to wrap up a job with polish, keeping the room neat and tidy during and after the completion of the installations.

Dandenong North Primary School is pleased with the final outcome.

Kind regards,

Adam Groom
IT Manager
